

CAP-SU-LATE SS[®]

Concrete and Brick Sealer

CAP-SU-LATE SS represents the latest technology in single component, solvent-based, protective coatings for concrete, brick, and masonry surfaces. This contributes to the ultimate in durability and ease of application in protective coatings. **CAP-SU-LATE SS** features the benefits of **low odor, fast dry, and easy re-coat**. The clarity of the film allows application on areas where discoloration or yellowing associated with varnish-type films is not acceptable. **CAP-SU-LATE SS** can be applied to either sealed or unsealed concrete, brick, and masonry surfaces. Its low odor, fast dry, and ease of application, combined with excellent durability, make it a prime candidate for installation in industrial institutions and commercial facilities. **Product Coverage:** Application coverage rate will vary with surface porosity and operator proficiency. The following is an average coverage rate: Porous Concrete=1000 sq. ft. per gallon. **CAP-SU-LATE SS** is available in 1- and 5-gallon containers. **CAUTION: KEEP OUT OF REACH OF CHILDREN. FOR INDUSTRIAL AND INSTITUTIONAL USE. *Emergency information*** regarding ingestion, skin contact, eye contact or inhalation is included in the Material Safety Data Sheet (MSDS).
